Juvenile (Type 1) Diabetes is a disease that strikes victims suddenly, making them insulin dependent for life, and carries the constant threat of health complications. Did you know that every 10 seconds two people are diagnosed with diabetes and every year, diabetes claims as many lives as HIV/AIDS?

Juvenile Diabetes Research Foundation (JDRF) 118976604 RT0001 was founded in 1974 by parents of children with diabetes. The mission of JDRF is to find a cure for diabetes and its complications through research. In 2007 alone JDRF Canada provided \$8 million in diabetes research.

However you choose to participate, we are committed to making this a fun night that will bring the community together for a great cause. We'll keep you informed of our progress throughout the summer and hopefully make a big donation to JDRF on behalf of all the sponsors and car people that have made these Cruise In's such a success.

At JDRF "dedicated to finding a cure" is not just a motto – it's a call to action. Audiomotion and JDRF invite you to join us on this journey. Together you can be sure that WE WILL ROCK YOU!

Sincerely,
